

# Integrated Academies Through Groundbreaking Partnerships

International Soccer Academy was established in 2020 to provide an authentic pathway for talented North American players. By 2021, we expanded to the prestigious Academy of **Schalke 04**, the Knappenschmiede with a fully integrated team of 22 players from all across the USA & Canada. In 2022, we launched a second team at the Bundesliga Club, **Hertha Berlin**, and a third team at Sportwerk in Germany. Our Gap Year program in Spain with La Liga clubs complements the Integrated Academies.

**Elite  
Players**

We give elite youth+ players the opportunity to live, play and be scouted in Europe ... to go pro or become impact collegiate players. Our expansion plan will see teams at other renowned clubs in the Bundesliga, Ligue 1, La Liga, and Liga Portugal and the launch of our Girls division.

### COMPREHENSIVE LIVE & VIRTUAL SCOUTING

Players go through a rigorous scouting process to be placed in one of these European rosters. Teams are scouting regularly for pro opportunities.

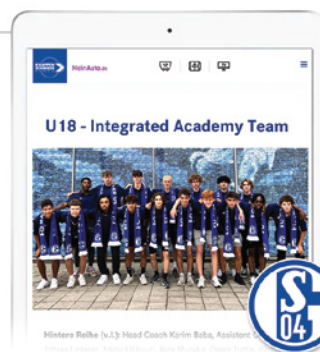

### OUR MISSION

To meet the needs of talented players deserving of immersion in existing pro clubs in Europe.

"Our goal is to create pathways for American youth soccer players to compete in the world's leading leagues," says **Eddie Loewen, Cofounder**.

"And, to always provide exceptional player development opportunities," says **Diane Scavuzzo, Cofounder**.

### INTEGRATED ACADEMY

North American teams are fully integrated with sections on pro club's website and exceed the expectations of our footballers.

### BEST-IN-CLASS METHODOLOGY

The player pathway capitalizes on the unique methodology of each partner, with the teams' dedicated head coaches reporting directly to the pro club's Academy Directors.

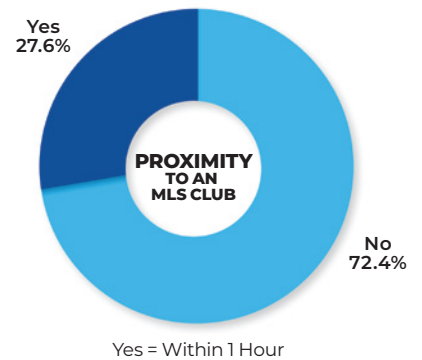

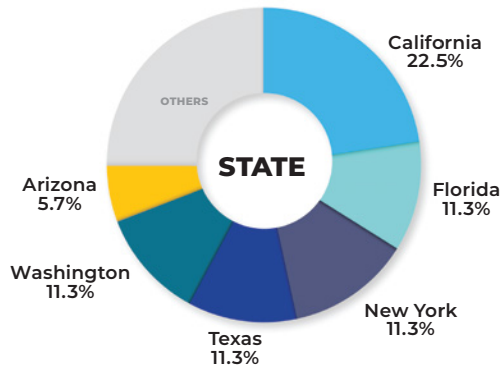

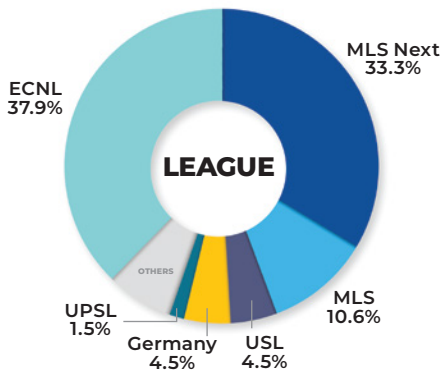

The demand for well-rounded American players is at an all-time high in the world and our individualized development programs and exposure opportunities lead players to top professional organizations and prestigious universities.

Playing highly competitive weekly matches in Europe allows players to reach their maximum potential and enhance individual and collective performance. We build smart, physically prepared, and mentally strong players capable of succeeding at the highest level. However, just as important to us is taking care of our players after they complete our program. The success of our players is a responsibility we take seriously and we always continue mentoring our players. We believe it is our responsibility to continue assisting our players - whether it's a second year at International Soccer Academy, arranging trials in professional clubs and signing contracts, or returning home and playing collegiate soccer.
